Filed: January 16, 2002

Title: METHOD FOR ENHANCING AN IMMUNE RESPONSE

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

**RESPONSE TO NOTIFICATION OF  
NON-COMPLIANT AMENDMENT UNDER 37 CFR 1.121**

Sir:

This is in response to the Notification of Non-compliant Amendment under 37 CFR 1.121 dated December 18, 2007.

The Notification states that the Amendments accompanying the RCE filing are non-compliant as a result of using an improper status identifier to identify the claims. The Notification further states that the correction required is the corrected section of the non-compliant amendment.

Accordingly, accompanying this Response are the amended claims sections only of the prior amendments, corrected to include the proper status identifier. For purposes of clarity, the prior amendments are the Response to Advisory Action, previously submitted on January 22, 2007, and the Response to Final Action, previously submitted on September 27, 2006. Both of these documents were filed with the RCE accompanying the petition to revive.

This Response is being filed within one month of the date of the Notification, and therefore, no fees are believed to be due.

In view of the foregoing, applicant believes that this application continues to be in proper condition for allowance, and such action is therefore requested.

Respectfully submitted,

William G. Gosz
